PROJECT DESIGN PHASE_1 SOLUTION ARCHITECTURE

| DATE	27 Oct. 22
PROJECT	WEB PHISHING DTECTION
Team ID	PNT2022TMID19993

SOLUTION ARCHITECTURE:

Solution architecture is a complex process – with many subprocesses – that bridges the gap between business problems and technology solutions. Its goals are to:

• Find the best tech solution to solve existing business problems.

• Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.

• Define features, development phases, and solution requirements.

• Provide specifications according to which the solution is defined, managed, and delivered.
